### **pmMaturity founder, Mike Weymier, named columnist for the Wisconsin Technology Network**

Milwaukee, WI – April 15, 2004 – As a special contributor to the Wisconsin Technology Network, Mr. Weymier is breaking down the tenets of project management. The seven-part series, devoted to TQM, TOC, COBIT, CMM and 6s, is designed to help organizations understand and apply these techniques.

Columns are planned covering the major process models devoted to continuous improvement in organizations. Explained will be the secret to continuous performance improvement, approaching it as a journey and following the appropriate path.

**pmMaturity**, is an organization with a simple purpose, enabling organizations to significantly improve their project performance. Its mission is better project performance - lower project cost, faster project delivery, and improved scope - through project management process improvement and maturity. It accomplished the goal for organization of all types through a unique set of services that helps leverage the existing project resources. **pmMaturity** provides software tools, methodologies, and training.
